The Bronx, NY 10473 | 929-247-8231 | christianjimenez0123@gmail.com | Github: cejimenez0123

FULL STACK DEVELOPER

I am a dynamic and creative person who has a mix of engineering skills allowing me to build front and backend of an application, and soft skills allowing me to work with nontechnical people. Importantly be engaging when leading and creating teams, to complete missions. I want to innovate with a company and solve 21st-century user problems.

TECHNICAL SKILLS

Programming Languages: JavaScript, Ruby,Python
Frameworks: Ruby on Rails, Sinatra, React, Redux, Django
Databases: PostgreSQL, SQL, Sqlite3
Other: HTML, CSS, Heroku, Github

TECHNICAL PROJECTS

Pb- https://github.com/cejimenez0123/pb-frontend | https://youtu.be/prSt2PJY8-s
Quote curation app
- Created a tree model comment section using acts as tree gem
- Enabled Active Storage so users can upload images to the platform
- Used Heroku to create a public API so it is possible to work with others from the same server
- Resolve merge conflicts with Github from working with a partner

Notely - github.com/cejimenez0123/myapp-frontend | youtu.be/FeIRl1EGqIs
Note Sharing and Messaging App
- Constructed asynchronous actions using redux-thunk to make calls to API
- Built with active record user to user sharing function so people could safely communicate
- Implemented encryption technology with bcrypt and SecureRandom to ensure security for user
- Charted a React presentational and container component architecture creating for easier debugging

Luxe - github.com/cejimenez0123/luxe | youtu.be/wRhfrMgKtHk
Trip booking app
- Built a single page app with front end functionality so people can have a responsive experience
- Created backend which communicates in JSON creating communicable data between servers
- Built web API so people can book trips, with trips stored in a database with a User table
- Developed a Rails API backend with endpoints for trips, ships, locations, and users

EXPERIENCE

CTB Global-Telecommunications   New York, NY
Account Executive   June 2018 – August 2018
- Led sales training sessions and teams at marketing events where we exceeded expectations by 15% of new contracts gained
- Increased customer satisfaction by 90% when guiding clientele through the onboarding process, and successfully managing conflict resolution. Using my personal charisma to influence a buying impulse.

Manhattan Borough President's Office   New York, NY
Economic Development Representative   May 2017 – Aug 2017
- Raised two million dollars for local economic development initiatives in low-income neighborhoods to expand resources for MWBEs and Tech.
- Completed detailed reports to the Vice-President and design teams involved in designing the final projects for roads, transportation, and markets completing surveys of stakeholders, and community needs.

EDUCATION

Flatiron School   New York, NY
Full-Stack Software Engineering   Nov 2019 – Apr 2020
Syracuse University   Syracuse, NY
B.A. English   May 2019
